Recommendation: Recommend multiple award the four (4) lowest bidders, GEM, Cover All, German's, and Beachland. Multiple award of this contract will ensure that adequate services are available during emergency situations. Contract administrators are required to evaluate the specific needs of each situation and select the vendor that offers to lowest price for that particular service. If services are not readily available by the lowest vendor, then contract administrators will contact the second, third and fourth lowest vendors respectively until adequate services could be obtained.
